Halifax, NS B3K 4L3

Dear Mark:

Recently I met with Jocelyne Rankin and Walter Regan regarding the ambitious plan to daylight the Saw Mill River. As the Developer of King's Wharf I am very supportive of this endeavor and see the numerous benefits for Dartmouth— economically, environmentally and in the continuation of the urban development which our project has initiated.

I strongly encourage HRM to seize this opportunity as Halifax Water embarks on the Sullivan's Pond Storm Sewer Renewal project and wherever possible include daylighting of the waterway.

I am hopeful that this project will become a reality and I extend my gratitude to the Ecology Action Center for providing the leadership required at this time.

Sincerely,
